Pine Tree Is South's Economic Hope For Future

Jackson—The pine tree is the "star" to which the South should turn for its economic future," said U.S. Senator Herman E. Tamm, of Georgia, before the Mississippi Forestry Association at its annual meeting here Friday.

"Of all the great natural advantages which the South enjoys perhaps the most valuable is its ability to grow pine trees faster and cheaper than any other region," the former Georgia governor declared at a luncheon at the King Edward Hotel.

"That fact, coupled with the growing importance of the pulpwood and paper industries, holds forth the promise of future wealth and prosperity for our section limited only by our ability to produce the needed trees and the imagination of scientists in discovering new uses for them. It is a promise which should prompt Southerners to put every idle and unproductive acre of land to work growing pines."

"I believe it well founded to assume that the fabulous developments that have and are taking place in the production of wealth from our Southern pines are to continue in the years ahead," he concluded.

Tamm, who was introduced by Mississippi Senator John Stennis, noted that, since World War II, pulp-mill plant capacity in the South has tripled and that, as of 1958, the region was producing 60 per cent of the nation's woodpulp and more than 40 per cent of its paper and paperboard. More than 400 persons attended the 22nd annual session of the Association which represents some 2,000 persons and companies interested in forestry.

MFA officers and members of the board of directors for 1959 were elected at the business session. D. V. Logan, Natchez, manager of the Delta Region, International Paper Company, was elected president, succeeding Ralph S. Taggart, Crosby.

Logan has served as both director and vice-president of the association.

J. E. Bryan, chief forester, L. N. Dantler Lumber Company, Perkinsville, was elected vice-president. A Ray Tillman, First National Bank, Jackson, was re-elected treasurer.

J. Roland Weston, of Bay St. Louis, was elected on the Board of Directors, to represent Hancock County.

PEARL RIVER COUNTY

Pearl River County, once largely agricultural with vast tracts of barren, overcut timber land, presents a picture of unbelievable contrast today. Unproductive acres of rolling land have been transformed into valuable acres of tung and timber. But the most outstanding change has been the influx of industrial enterprises which continues today at an ever accelerated pace. The unique feature of the county is tung. Tung trees total nearly 60,000 and in bloom in January, March and April—present a floral spectacle unequalled anywhere in the world.

OIL AND GAS PRODUCTION

Oil and gas production continues to spark the state's economy. Some thirty-three counties have over three thousand producing wells, and production this year is expected to break a 21-year record. Number of geophysical and core drilling crews active in the state ranks just behind Texas and Louisiana.

WAVELAND WANDERINGS

by GEORGETTE B. HALL

Happy birthday greetings are extended to Mrs. Alfred Ziegler of Waveland Avenue and to Mrs. Joseph D'Quin of Nicholson Avenue. Both ladies had birthdays on January 23. Best wishes for many, many more.

All of Mrs. B. Georgi's well-wishers attended the inauguration of President Kennedy in Washington last week had to be cancelled when her brother became seriously ill and had to undergo major surgery at Mercy Hospital in New Orleans. Mrs. Georgi was at her brother's bedside and also helped to care for his children.

Mrs. Georgi is a charter member of the Jack Kennedy Democratic Organization in Louisiana. Her membership is valued as only forty people make up the charter members of the organization. Mr. and Mrs. Georgi presently own and operate the "Nifty Gift" Shop on Coleman Avenue.

Sunday guests of Mr. and Mrs. George Stetz and their daughter, Georgette, were Mr. and Mrs. Harold Stetz and Mrs. Walter Stetz of New Orleans. Harold Stetz is George's brother and Mrs. Jones his mother. Good news comes from George Stetz after a serious illness and hospitalization he's home again and on the upward trend. His many friends send him best wishes for a speedy recovery.

Mr. Ducre Bourgeois is busy in Biloxi these days where he is building an addition to the home of his daughter and son-in-law, the Edwin Cobbs.

Mr. Arvil Jenkins is feeling better again after being confined to his home due to illness. Mrs. Ruth Ketchum is another who has been on the sick list. She's reported to be doing better also. As we go to press, several other friends are still hospitalized and this column extends every good wish for continued improvement in their health and well being. Hospitalized in Hancock General Hospital as a result of heart attack are Mrs. V. A. Leveau, Mr. John Garza, Jr. and Mrs. Addie Walker.

Recovering in a New Orleans hospital after recent surgery is Mr. O. H. Williams. Get well wishes are sent to all these shut-ins.

Mr. H. E. Mang of Clermont Harbor has been permitted to return to his home after being hospitalized in Bay St. Louis. Mr. Mang was injured while at work and suffered a broken ankle and a dislocated shoulder. His many friends are glad to hear of his recovery.

Mr. and Mrs. W. T. Frierson of the "Pine Burr" had several home folks visiting them during the weekend. On Saturday Mr. and

Mrs. T. V. Lawler and Mrs. Ruth Frierson's niece, Miss Marie Swiley, of Pearlinton were guests. Joining them on Sunday the Friersons' guests were Mr. and Mrs. Jack Hood and daughter, of New Orleans.

Miss Lynne Hall was among the students of Gulf Park College who attended an evening performance of the "Music Man" at the Civic Theatre in New Orleans last Tuesday. Forrest Tucker and Joan Weldon played the leads in this delightful musical comedy which has delighted Broadway audiences for several seasons.

Congratulations to Mr. and Mrs. Walter Turcotte, Jr. on the birth of their infant son, born January 22 in Memorial Hospital in Gulfport.

A reminder says it's tax time once again and also time to apply for homestead exemption.

Mrs. B. H. Lister, owner of the Pirate House, was recently introduced at the New Orleans Charity Horse Show at the Fair Grounds as a new member of the organization. The group sponsors the Magnolia School for Retarded Children. Mrs. Lister says that almost at the exact hour that our new president was being inaugurated a dynamite blast rocked the beach in front of the Walter Villere's home. It was almost as if the Town of Waveland were giving President Kennedy a noisy welcome. Actually it was the blasting crew ridding our beach of those unsightly stumps.

Mr. Ott Brockman, son of Mr. and Mrs. T. H. Brockman, Sr. who is now the local Southern Bell Telephone manager in Hattiesburg, was awarded a ten-year service pin last week by Mr. F. J. Lumdy, district manager. Mr. Brockman, whose rise from coin collector to manager, is a modern day success story. He has worked in Gulfport, Laurel and Keeler Air Force Base. His pin bears two stars, one for each five years of service with the company. He is married to the former Betty Courge of Lakeshore and has two daughters. They reside in Hattiesburg but visit friends and relatives on the Coast often.

33 University of Miss. Students Elected Members of Phi Kappa Phi

University, Miss.—Thirty-three University of Mississippi students have been elected to membership in Phi Kappa Phi, national scholastic recognition society. The list includes 10 students from the schools of Medicine and Nursing in Jackson.

One faculty member also will be initiated.

Initiation ceremonies are scheduled to be held on Feb. 12 at the Miss. Center for Continuation Study at 4 p. m.

School of Medicine honorees include Peter B. Henderson, Bay St. Louis.

Damaged car of Fred DeHann which was in a collision Monday evening around 4:00 at Uman and Highway 90 with a vehicle driven by Andrew Magazat. No personal injuries, just property damages. Investigated by Fred Curet, Highway Patrolman. Photo by Carl Gustafson.

Funeral Services For Mrs. Huff Were Held At Pascagoula

Funeral services for Mrs. Rosie Huff, 84, were held Monday morning at St. Mark's Methodist Church, Pascagoula, with the Rev. L. R. Henry officiating. Interment was in Pearlington Cemetery.

Mrs. Huff died at 1:00 a. m. Saturday, January 14, at the residence of her son in Pascagoula.

A native of Pearlington, she resided in Pascagoula, for 30 years.

Survivors include one daughter, Mrs. Hattie Leroy, Pascagoula; one son, Valco Huff, Pascagoula; two sisters, Mrs. Rebecca Roberts and Mrs. Christine Dennis; and one brother, Wiley Daniels, all of Bay St. Louis.

Hancock County School Board Met Last Monday

The Hancock County School Board met last Monday at 7 p. m. in the Supt. of Education's office with Louis Nease, Alton Keller and A. C. Courge, present.

Mr. Keller was named temporary chairman to succeed Mrs. C. C. McDonald, Sr.

A motion was made and carried to transfer heaters in the Sellers School gym to Gulfview school.

The board adjourned until January 30 at 7 p. m.

ELECTRICITY ON THE FARM

Farmers and farm housewives are doing more of the work on the farm home with electric power. Today's use of electric power on the farm and in the home is doing much to reduce labor requirements make work easier, do many jobs better, and provide more comforts for farm families.

The use of electricity on the farm has opened up a vast new market for all kinds of electrical appliances and electrically powered machines.

CARD OF THANKS

We wish to express our heartfelt thanks and appreciation to the many friends for the kindness and sympathy shown us at the time of the death of our husband and father, John A. Collier.

Special thanks to Rev. Fathers Michael Kelly and Bernard Haddican, Mr. and Mrs. Wilson Webb, Dr. W. L. McFarland, Lorraine Flower Shop, J. T. Jacobs, Kenneth Whitfield, and Woodrow Lafontaine of Fahey-Whitfield Funeral Home.

Many thanks for the floral offerings and Masses.

Wife and Daughters.

Mississippi On To Pay On Budget For Fiscal Year Of 1961

Mississippi will be able to pay \$504,000,000 of the proposed \$505 billion federal budget for the fiscal year 1961 if it is adopted by Congress, the Mississippi State Chamber of Commerce estimated.

The organization said it based its estimate of the state's share of the proposed budget upon an accepted economic index which shows the state to bear forty-five one hundredths of one percent of all federal spending. This percentage, applied to the \$505 billion figure gives the \$504,000,000 figure.

The State Chamber also said that a state economic index applied to the state's share of the proposed budget indicates Hancock County will have to shell out \$2,439,000 in one year if the budget is adopted. The County's share of tax paying is 67 percent of the state total according to the index.

"The continued high cost of federal government, as proposed in the new federal budget, is evidenced even more when it is considered that for the latest fiscal year available, which ended

CHANCERY SUMMONS THE STATE OF MISSISSIPPI No. 8574

To Edward Rorer, and any and all persons having or claiming any right, title or interest in and to the following described property situated in Hancock County, Mississippi, to-wit:

HANCOCK COUNTY SAVINGS BONDS SALES

1960 Sales of Savings Bonds amounted to \$116,077.00 which was 65.83% of our goal. On behalf of the treasury I want to thank everyone who has bought bonds and recommended them. This is an important program, and deserves the support of all our people. The result of money spent in buying our freedom in World War II, and to some extent lifting us out of the worst depression we ever had is a "cancer" to our economic existence. It must be managed properly or our way of life is in great danger. We are asked to keep at least 35% of the debt in Savings Bonds. Each county has its quota share. Your county committee needs your help. We do our people a favor when we get them to save and invest in Series E and H Bonds. I know of no better investment for the average person than Series Bonds which pay a guaranteed rate of 3-3/4% compounded semi-annually for 7 years and 9 months; and you do not have to report earned interest on income until the bond is cashed, which can be 17 years and 9 months from the date of purchase. For current income the Bond pays 3-1/4% for 10 years. Interest checks are mailed every six months. There is no investment safer than more liquid than a Savings Bond. I will announce to you our 1961 goal within a few days. Respectfully, A. J. Becker, County Chairman.

Hancock County Savings Bonds Chairman Announces 1961 Program

In my last report I told you I would announce the 1961 Savings Bonds Program and goal. After much thought concerning this program as related to our situation and you, our people I rather think of it as our opportunity to do something for our own benefit: an opportunity to help our county and ourselves. The management of the public debt determines the soundness of the \$; of how much our \$ will pay; and how strong our defense. This should be reason enough to do our part. But, Savings Bonds offer far more than this—they offer us the opportunity of investing our savings in the safest investment in the world with a guaranteed 3-3/4% rate of interest for 7 years and 9 months, or the current income 3-1/4% H Bond which runs for 10 years. A good financial program for everyone could include some Savings Bonds. This is the 20th Anniversary of the Savings Bonds Program. During these 20 years, \$119,999,723.99 have been invested in E and H bonds. Thousands of boys and girls have been educated; homes have been built; debt and medical bills of various kind paid, and yet there is \$43,028,420,876 now held by individuals. Our people in this county have hundreds of thousands of dollars stored away in these safe securities. We are asked to invest \$75,000 in 1961. In the true sense we could consider it an opportunity to let this be one of your New Year resolutions—to invest in Savings Bonds. You will not be sorry.

60 OIL PRODUCTION TO 51 MILLION BARRELS

The State of Mississippi produced during the year 1960 approximately 51,000,000 barrels of oil, which will exceed the previous high of 49,620,291 barrels produced in 1959. A total of 649 wells were drilled in 1960; 286 were completed as oil wells; 37 as wells and 328 as dry holes. Twenty-one new field discoveries were made.

How to Spark Up Your Conversation

A business meeting followed with Mrs. Lionel Sellier, vice president, presiding. Mrs. E. V. Aime was appointed social chairman with Mesdames Steinben Ruiz, Monroe Cuevas and Julius Ramel serving on the committee. Assisting Mrs. Ramel Ways and Means chairman will be Mesdames Church, Bufkin and Wayne Dugas. Publicity, Mesdames James Zimmele, Ruiz and Aime; Service, Mesdames Robert Fayard, William Cooley and Kersanac; Program, Mrs. Kersanac and Mrs. Ben Hille, Jr. A membership committee was appointed to take charge of the rush season in March. Serving on the committee will be Mesdames Lionel Sellier, Kersanac and Dugas. The next meeting will be held at the home of Mrs. Dugas.

Mechanic Examination At Gulfport, Mississippi Post Office Open.

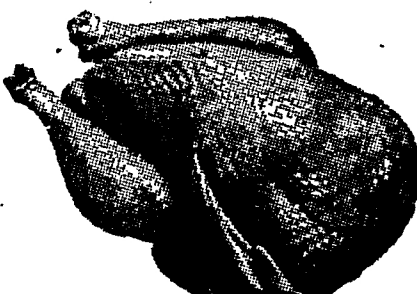

Postmaster Andy J. Becker announces that the examination for Automotive Mechanic in the Vehicle Maintenance Facility, at the Gulfport, Mississippi post office is open for the purpose of establishing an adequate register for future needs. A copy of the announcement and application form will be gladly furnished upon request. Persons residing within a 35 mile radius of Gulfport are eligible to apply. The beginning rate of pay is \$2.22 per hour. Applicants must have reached their eighteenth birthday on the date of filing application. This age limit does not apply to persons entitled to Veterans Preference. All interested persons can secure necessary forms and further information from their local postmaster, the Executive Secretary, Board of U. S. Civil Service Examiners, Room 306, U. S. Post Office, Jackson, Miss., or from the Fifth U. S. Civil Service Regional Office, Atlanta 3, Ga. Applications should be filed with the Executive Secretary, U. S. Post Office, Jackson, Miss., and must be received or Postmarked no later than February 23, 1961.

In the state to date, of which 18 were completed as oil discoveries and three as gas discoveries. Wildcat drilling activity has been centered in the southwestern part of the state. The counties of Amite, Franklin, Lincoln, Pike, Walthall and Marion accounted for 10 of the new discoveries.

What do you mean, "armamentarium?"

Sometimes physicians forget and talk their own language. Greek to most people. Now, about the mouthful above, ever hear something like this from your doctor? "drawing on our present armamentarium to treat you..." Actually, "armamentarium" is just a doctor's word for the array of treatments and medications at his disposal. When it comes to drugs, this armamentarium is *awesome*. Thousands and thousands, literally. All are readily available in this pharmacy to help preserve your health—your health—a public service which we are pleased to render.

CHANCERY SUMMONS
No. 5508
THE STATE OF MISSISSIPPI
To JOHN G. DEFFES, a non-res-
ident of the state of Mississippi,
whose Post Office and Street
Address is 4439 Perilla St. New
Orleans, La.

You are summoned to appear
before the Chancery Court of the
County of Hancock, in said State,
on the THIRD Monday of FEB-
RUARY, A. D. 1961, to defend the
suit No. 5508 in said Court of
MRS. FRANK VARDIN, JR., AD-
MINISTRATRIX de bonis non, to
show cause why the First An-
nual and Final Account should
not be approved.
This 18th day of January, A. D.
1961.
(SEAL) C. J. LADNER,
Chancery Clerk.
By: Vera L. Breland, D. C.
1/19/61.

BERTIN D. (FIP)
JOHNSON
General Contractor
Phone HO-7-5609

Mr. and Mrs. Russell Chapman
will spend the weekend in Flom-
ton, Ala., as guests of her moth-
er, Mrs. W. W. Morgan and his
parents, Mr. and Mrs. R. P. Chap-
man.

CHANCERY SUMMONS
THE STATE OF MISSISSIPPI
To THE UNKNOWN HEIRS AT
LAW OR DEVISEES OF JOHN
WATSON, Deceased; if any;
Any and all other persons, if
any, having or claiming any
right, title or interest in and to
the following described property
to-wit:

Commencing at an iron stake
set for the Southeast corner of
the E. W. Ripley Claim in Town-
ship 8, South Range 14 West;
thence run West 2,578.8 feet to a
stake for the place of beginning
of the land herein described;
thence run South 0 degrees 4 min.
West 480.0 feet to a stake; thence
south 0 degrees 4 minutes West
720.0 feet to a stake; thence West
635.0 feet, more or less to a stake
set on the East bank of a water-
way; thence run northerly along
the meanderings of the East bank
of said waterway to a point due
West from the place of beginning;
thence East 1150.0 feet more or
less to the place of beginning;
containing 18.1 acres, more or less,
and being part of the John Wat-
son Claim in Township 8 South
Range 14 West, in Hancock Coun-
ty, Mississippi; together with all
and singular the rights, privi-
leges and appurtenances to the
same belonging or in any wise
appertaining; and subject to a
reservation of all of the oil, gas
and minerals in, on or under
the hereinabove described land.

You are summoned to appear
before the Chancery Court of the
County of Hancock, in said State,
on the THIRD Monday of Febru-
ary, A. D. 1961 to defend the
suit No. 8559 in said Court of
REL PROPERTIES DEVELOP-
MENT CORPORATION.

The same being a suit to quiet
and confirm complainant's title
to said land above described and
to remove cloud therefrom
wherein you are a defendant.
This 12th day of January, A. D.
1961.
(SEAL) C. J. LADNER,
Chancery Clerk.
By: Vera L. Breland, D. C.
1/19/61.

Understand that Bob Fleming
has been transferred to Gulfport—
sorry to see our golfing partner
leave us.

Saw Ed Orr from down Bayou
Caddy way today. Same old Ed, a
good sport as usual. Fishing he
reports is not too hot just now at
the Bayou.

August Rauxet is now making
fishing boats, 9, 12 and 14 feet,
especially for fly fishing. They are
light, strong and sturdy. See Aug-
ust about them.

Ed Fayard was up Jordan River
recently. Must have been trying
out some of the baits he makes,
and they catch fish, too.
Chester Favre, OK again after

Bad weather and bad water is
the answer to no fishing over the
past weekend. Everyone is waiting
for warmer weather to venture
out.

Hunting is off the calendar ex-
cept for a little quail and rabbit
hunting.

From reports Mulatto Bayou,
Pearl River and tributaries are
bad just now. Jordan River is
not too bad and clearing rapidly.
With warmer weather fishing
should improve right along.

Mr. and Mrs. Justin C. Ham-
mick of Kittery, Maine, "The Home
of the Submarines" are down for
a short stay. They are former
residents of Ansley and were at
one time at Sportsman Lake. They
enjoy fishing and expect to do
some while here.

Jim Kelly says Mulatto Bayou is
bad just now but that is not un-
usual at this time of year, as Pearl
River get high and backs the
bad water into its tributaries. This
summer there should be some
real good fishing up his way, he
says.

Golfers wound up Saturday after-
noon with freezing hands, Boy,
was it cold!

Chep Richardson was out Satur-
day looking over his camp out Main
St. Will be glad to take the fam-
ily out and do some fishing when
the Good Old Summer Time comes.

Understand that Bob Fleming
has been transferred to Gulfport—
sorry to see our golfing partner
leave us.

Saw Ed Orr from down Bayou
Caddy way today. Same old Ed, a
good sport as usual. Fishing he
reports is not too hot just now at
the Bayou.

August Rauxet is now making
fishing boats, 9, 12 and 14 feet,
especially for fly fishing. They are
light, strong and sturdy. See Aug-
ust about them.

Ed Fayard was up Jordan River
recently. Must have been trying
out some of the baits he makes,
and they catch fish, too.
Chester Favre, OK again after

Bowling team are holding their
own and each night see some
teams participating. Bowling is a
good game—better try it.

Soft crab and floundering enthu-
siasm are readying their lights,
and—wait be long now. March
and April are the best months to
eat the crab according to the old
timers.

Wednesdays Mass: 6:30 and 8 A. M.

"I thank thee, Father, for this food."

There is something very touching about a child saying grace. You feel that here is a small person who is really in communion with God. His earnest face filled with utter trust breathes the real spirit of thankfulness. He feels what he is saying.

And yet a prayer of thanks does not come naturally to a child. Just as he is taught to feed himself and brush his teeth and tie his shoe laces, so he must be taught to pray. Not taught exactly—but shown. He must be made aware of the loving Father's care.

Send your child to church school—take him to Church. There he will learn to recognize the presence of God in his life and to be grateful for the many blessings showered on him daily.

Copyright 1965, Kistler Adv. Service, Strasburg, Va.

THE CHURCH FOR ALL... ALL FOR THE CHURCH

The Church is the greatest factor on earth for the building of character and good citizenship. It is a storehouse of spiritual values. Without a strong Church, neither democracy nor civilization can survive. There are four sound reasons why every person should attend services regularly and support the Church. They are: (1) For his own sake. (2) For his children's sake. (3) For the sake of his community and nation. (4) For the sake of the Church itself, which needs his moral and material support. Plan to go to church regularly and read your Bible daily.

Day	Book	Chapter	Verses
Sunday	Romans	14	6
Monday	Matthew	18	4-5
Tuesday	Psalm	119	12-16
Wednesday	Proverbs	22	17-19
Thursday	Psalm	32	8
Friday	Titus	2	6-8

Million Women to Join Mothers' March Support March of Dimes Health Goals

Some 10 million women will join the 1961 Mothers' March, supporting the March of Dimes health goals.

Recalling the need for research to unlock the mysteries of such major crippling diseases as birth defects and arthritis, the Golden Key also represents the vaccine for polio prevention. Research through the March of Dimes.

In most communities, the Mothers' March will take place the evening of Tuesday, Jan. 31. Volunteers identified by the Golden Key will sell on their neighbors for support in the campaign against crippling diseases which affect one in four American families.

Each of the estimated 40 million households visited in the Mothers' March will receive valuable health information cards including Do's and Don'ts for expectant mothers, Arthritis Warnings, and Vaccination Alerts for the almost 85,000,000 Americans still not protected against polio.

Becklaid by centuries of superstition, birth defects are considered by medical authorities to be the nation's most serious child health problem. Yet the fields of cause and prevention were largely unexplored until funds from the March of Dimes began to make intensive research possible. Pointers derived from early research are included on the cards to be distributed by Mothers' March volunteers.

The cards are also designed to bring home the realization that more than 11,000,000 Amer-

icans suffer from some form of crippling arthritis. Many victims, grasping at straws, pay out a total of more than \$250,000,000 annually on quack "cures." The fact is that the causes of arthritis are largely unknown. There is no known cure, no known preventive. But research to find the key is being rapidly advanced through March of Dimes support.

To improve treatment and rehabilitation of those crippled by birth defects and arthritis, a network of clinical study centers is being established by March of Dimes. Techniques developed

by The National Foundation in aiding polio sufferers are applied to children suffering from birth defects and arthritis. All of this research and patient care would be impossible without health manpower—and womanpower—to put it to use. To help meet this drastic problem, March of Dimes funds support a health scholarship program in every state each year. Thus the Marching Mothers also seek support for an increase in the critical supply of doctors, nurses, physical therapists and others dedicated to the improvement and protection of the nation's health.

phosphate and potash. If you want extra good results and have ryegrass or a cereal growing in the clover, you may want to go as high as 80 pounds of each. Fire control is important. Most pastures that burn off, do so in January or February. Fire not only destroys a lot of good rough grazing, but also kills out young grasses and clovers coming up down in the sod. Fire lanes around pastures will help prevent fire from getting in your pasture.

SAFETY SUGGESTIONS FOR TRACTORS

Here are some pointers on making your tractor safer. Clean it up. A clean tractor is a safer tractor. Accumulations of oil and grease make it a lot easier to slip and fall.

Lights. If your tractor is to be on the highway after dark, make sure that it has adequate lights. Watch your speed. Many tractor accidents are caused by excessive speed in turning.

Stick in mud? Get towed out. Tipping accidents often happen when fence posts or other objects are placed under the wheels to give traction.

Brakes. Make sure the tractor brakes are equalized for high-speed travel.

Hitching. Hitch only to the drawbar. Hitching higher than the drawbar greatly increases rearward pull.

Shields. When using the tractor or make sure that the safety shields are in place at all times.

PLANTING SEEDS

Want your seedlings to live and grow well? Then take care of them. Do not let the roots dry during planting. Keep the seedlings in a bucket of water, in wet moss or paper. Keep them moist at all times.

If you have to hold the seedlings for a while before planting, spread them out and keep them damp. Protect from freezing.

For more information on helping increase survival of pine seedlings call on your local county agent.

A newspaper story out of New York State the other day reported that authorities had uncovered a gigantic racket with United States Savings Bonds. It seems that a fellow was acting as a "fence" in cashing stolen Savings Bonds by means of forged drivers' licenses. (Incidentally, he got 10 years in Federal Prison for it).

What the newspaper story did not point out was that the original owners of all those stolen bonds didn't lose a penny on them. You see, the Treasury replaces, without charge, all Savings Bonds that are stolen, lost, mutilated, or destroyed.

That may be one of the main reasons why so many farmers own Savings Bonds more than \$5 million worth throughout the country as a whole. When there's so much risk involved in the way you have chosen to make a living, it is sort of nice to have risk-free savings to fall back on.

SOIL CONSERVATION NEWS

Hancock County Conservation leaders are looking forward to issuance of the world's first range conservation postage stamp by the Post Office Department in Salt Lake City, Utah, Postmaster Andy Becker said today.

The commemorative 4-cent stamp printed in 3 colors will be issued February 2 at the American Society of Range management's annual meeting at Salt Lake City. The stamp will go on sale at the Bay St. Louis, Miss. post office on the following day, February 3.

The stamp is in two parts. One part is a reproduction of the famous drawing, "Trail Boss," by Charles Russell, the distinguished artist of western life. The other part shows a modern range conservation scene.

The new stamp Becker said symbolizes the development of range conservation from the pioneer days of the open range to today's scientific management techniques. Those who are interested in a "first-day cover" a souvenir envelope, can mail addressed envelopes plus a money order or certified check for the number of stamps required to the postmaster at Salt Lake City, Utah, who will place the range conservation stamp on the envelopes, cancel with a special cancellation mark used only on that day and at that place, and mail as addressed anywhere in the country, Becker pointed out.

Funeral Services For Mrs. Ida A. Ollie Were Held Tuesday in N. O.

Funeral rites for Mrs. Ida A. Matrago Ollie were held Tuesday at 11:30 a. m. from the Auxiliary Funeral Home of Jacob Schoen and Son, Inc., followed by a Requiem Mass at St. Dominic's Church. Interment was in Greenwood Cemetery.

Mrs. Ollie, 71, wife of William L. Ollie, Sr., was a sister of Mrs. Harry Glover, of New Orleans and Bay St. Louis, and aunt of Commissioner J. Cyril Glover.

She was the mother of Mr. Dewey Lanoux, William L. Jr., Robert J. and Anthony W. Ollie; Sister of Mrs. Glover, Salvatore Matrago and the late Mrs. Rose DiCarlo.

Survivors include six grandchildren. Mrs. Ollie, a native of Meridian, had resided in New Orleans for the past 55 years.

HOME AGENT'S NOTES

MARCLA P. HUGHES
Home Demonstration Agent

About one out of five Americans get too little thiamine (vitamin B₁).

Symptoms of a mild lack of thiamine may be constipation, poor muscle tone, fatigue, depression and irritability. This is why it is often called the pep or "morale" vitamin.

Small amounts of thiamine are found in many foods. One of the best sources is pork. Other sources are liver, lamb, veal, beef, poultry, dried beans, and peas, nuts, enriched or whole grain breads and cereals.

GROW MORE FRUIT

Everyone can at least have some fruits. Consider small fruits as strawberries, muscadine grapes, figs and blueberries, or tree fruits, as pears, persimmons, peaches. They usually don't require spraying if you plant proper varieties.

A list of varieties recommended for this area of the state is available at your home agent's office. Or if you have kept your copy of the November, December Garden Fruit and Flower Guide, you will find the varieties in it.

If you didn't get your fruit trees, pecan and grape vines planted in December, better get them planted this month.

DID YOU KNOW? Early users of electric ranges insisted on a range with a fire box in which to burn corn cobs or other fuel to heat the kitchen during cold weather in farm homes, the demand for this combination range disappeared.

GROUND BEEF SUGGESTIONS

Have you tried making individual meat loaves? Or filling meat in cups with ground beef—to insure equal portions for all?

Filled patties are popular too. Cooked rice, grated cheese, thick barbecue sauce, sautéed mushrooms or dried onions go well between two very thin ground beef patties before cooking.

Add chopped fresh cranberries to your meat loaf or meat balls. If you make tiny meat balls, you get from six to eight from a pound of ground beef. Form ground beef into oblong patties for using as Salisbury steak.

ELECTRIC BLANKET CARE

Read and follow the manufacturer's instructions on use and care.

Always turn current off when blanket is not in use and avoid bunching blanket when current is on.

Avoid creasing the blanket. Most elements wires are designed to stand many thousand flexes, but it is good sense to avoid sharp kinks and bends. Fold the blanket loosely when carrying it for storage.

The folks who are authorities on the problem of overweight say it is more important to teach young children the habit of not getting fat than it is to teach them to brush their teeth regularly. It is more important from health and social standpoints, they say.

The teaching of young children to watch their weight depends largely on mother's good meal planning. From the child's early days the mother must realize that the day is past of the idea that

COOKING UTENSILS

When reading the ads about cooking utensils, read the fine print as well as interpret what the ad says. Did the ad say the utensil is suitable for top burner or top unit?

Gas ranges have burners and electric ranges have units. Some cooking utensils are better shaped for one than the other.

Select pots and pans that have flat bottoms and straight sides with tight fitting lids to use on your electric range. A utensil that fits the electric unit is more efficient than a smaller one.

When you store fresh coconut at home, burn the eyes down for a fresher product. The light causes the eyes to soften and weep and the coconut to crack. Place in a dark, dry place. You may store in the refrigerator.

Milk has a place in a reducing diet. It contributes valuable protein, minerals and vitamins for the calories it carries. If you use skim milk or buttermilk to help calories low, you may get the vitamins A that you lose when the cream is removed from other foods, as leafy green vegetables.

The idea of bone adding flavor to meat has been discredited through many taste tests. The bone does not add flavor. If you cut the bone and let the marrow cook out, it may add a greasy-like substance that some may desire. Actually, you cut bone adds nothing.

Wellll...What Did I Tell You Twenty Years Ago

EC-61-1

a plump, overt baby is a healthy baby that to be big is the same as to be strong and healthy.

Don't put more food before small children than they need, and then insist, threaten or con- jure until it is eaten. How many times does mother give baby an unneeded bottle for no better reason than to keep him from crying?

Research shows that most fat children were not overweight at birth. They grew fat, in most cases because they were taught or encouraged to eat more calories than they need. Parents often set the example of overeating. Overeating from early childhood results in teen-age and adult obesity.

Overweight in a man or woman who was fat as a child is the hardest to overcome.

COOKING UTENSILS

When reading the ads about cooking utensils, read the fine print as well as interpret what the ad says. Did the ad say the utensil is suitable for top burner or top unit?

COUNTY AGENT'S NOTES

O. G. SWORDS
County Agent

Improve and repair your pastures to make money this year. Here are some jobs that need doing. Apply lime and fertilizer. Control weeds. Control overgrazing. Grow roughage for storage.

Some current pasture management chores include controlling weeds. Dock and thistle can be sprayed now with amine 2,4-D. Do not use 2,4-D when temperatures are below 50 degrees F. Do not use 2,4-D on areas where red clover, crimson, lespedeza, vetch or water peas are growing.

Now is a good time to fertilize the spring clover areas for good growth. Use 60 pounds each of

phosphate and potash. If you want extra good results and have ryegrass or a cereal growing in the clover, you may want to go as high as 80 pounds of each.

Fire control is important. Most pastures that burn off, do so in January or February. Fire not only destroys a lot of good rough grazing, but also kills out young grasses and clovers coming up down in the sod. Fire lanes around pastures will help prevent fire from getting in your pasture.

SAFETY SUGGESTIONS FOR TRACTORS

Here are some pointers on making your tractor safer. Clean it up. A clean tractor is a safer tractor. Accumulations of oil and grease make it a lot easier to slip and fall.

Lights. If your tractor is to be on the highway after dark, make sure that it has adequate lights. Watch your speed. Many tractor accidents are caused by excessive speed in turning.

Stick in mud? Get towed out. Tipping accidents often happen when fence posts or other objects are placed under the wheels to give traction.

Brakes. Make sure the tractor brakes are equalized for high-speed travel.

Hitching. Hitch only to the drawbar. Hitching higher than the drawbar greatly increases rearward pull.

Shields. When using the tractor or make sure that the safety shields are in place at all times.

PLANTING SEEDS

Want your seedlings to live and grow well? Then take care of them. Do not let the roots dry during planting. Keep the seedlings in a bucket of water, in wet moss or paper. Keep them moist at all times.

If you have to hold the seedlings for a while before planting, spread them out and keep them damp. Protect from freezing.

For more information on helping increase survival of pine seedlings call on your local county agent.

A newspaper story out of New York State the other day reported that authorities had uncovered a gigantic racket with United States Savings Bonds. It seems that a fellow was acting as a "fence" in cashing stolen Savings Bonds by means of forged drivers' licenses. (Incidentally, he got 10 years in Federal Prison for it).

What the newspaper story did not point out was that the original owners of all those stolen bonds didn't lose a penny on them. You see, the Treasury replaces, without charge, all Savings Bonds that are stolen, lost, mutilated, or destroyed.

That may be one of the main reasons why so many farmers own Savings Bonds more than \$5 million worth throughout the country as a whole. When there's so much risk involved in the way you have chosen to make a living, it is sort of nice to have risk-free savings to fall back on.
